

# Who Are We?

## What is bourbon vanilla?

We are a Dubai based E-Commerce and our Team are from MADAGASCAR and Mauritius, two beautiful islands in the middle of the Indian Ocean. We are sharing with you our love of Vanilla.

Madagascar is the main vanilla producer in the world with more than 30,000 hectares of plantations on the island. Discover this sweet and captivating spice cultivated with passion by the numerous local producers. It's in the region of SAVA, in the northeast of the island that you will appreciate large areas of vanilla plantations.
